## Connecting Space to Village in West Africa

SERVIR-West Africa is a geospatial data-for-development program that responds to the needs of West African countries. Learn more

### DECISION SUPPORT TOOLS

These high quality user-tailored decision support tools and applications have been developed to address on-the-ground issues, empowering decision-makers to act locally on climate-sensitive challenges such as disasters, agriculture, water management, ecosystem protection and land use.

### **Request Technical Assistance**

Our priorities are set by the expressed needs of stakeholders. Let us know the needs of your organization by requesting assistance.
